When image is everything and performance counts, rely on the extraordinary image quality and robust processing power of the large-format magicolor 7450. It's perfect for all your design and business printing needs.

### **Robust Performance**

# Extraordinary power for the most demanding print tasks.

- Featuring a 733 MHz G4 processor and custom acceleration hardware for fast job processing, the magicolor 7450 delivers its first b&w page in just 8.2 seconds, its first color page in 11.4 seconds, and subsequent prints at 24.5 ppm.
- Emperon controller technology provides fast document processing and cross-platform compatibility with Windows, Macintosh, and Linux operating systems.
- The magicolor 7450 supports PostScript 3, PCL 6, PDF, and JPEG/TIFF Direct Print emulations for seamless processing of all your color documents.
- Equipped with a Gigabit Ethernet interface, the magicolor 7450 supplies high-speed printing for an entire network of creative professionals.
- The printer's 120,000 page-per-month duty cycle is perfect for demanding high-volume printing.

### **Exceptional Print Quality**

Precise color matching and finely detailed graphics and images.

- •The magicolor 7450's 9600 x 600 dpi-class resolution generates true-to-life photographic detail, smooth color gradients, and highly saturated deep blacks using contone printing technology.
- For dependable, accurate color the magicolor 7450 supports ICC color matching. It also includes SWOP, Commercial Press, Eurocolor, TOYO, DIC, and SNAP press emulations and PANTONE<sup>®</sup> Color tables for complete color control.
- The magicolor 7450 uses KONICA MINOLTA Simitri® Polymerized Toner, which improves fusing even on coarse media, and gives you durable prints with beautiful images and crisp text that don't smear or fade.
- The KONICA MINOLTA smart calibration system—enhanced Automatic Image Density Control (eAIDC)—assures consistent color on every print, every day, throughout the life of the printer.

Express yourself on virtually any type or size of media.

- The magicolor 7450 handles a broad selection of media types and weights (up to 141 lb. Index), giving you enormous flexibility for brochure printing, promotional publishing, and commercial-quality documents.
- Supporting a wide range of media sizes, the magicolor 7450 can print on custom media as small as 3.55" x 5.50", to 12.25" x 18" for full-bleed tabloid designs, and up to banner size of 12.25" x 47.24".

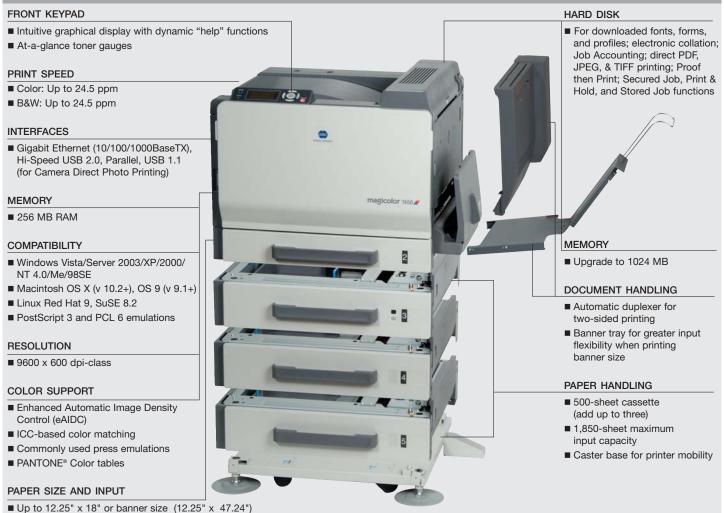

- This workhorse printer can easily handle large print jobs for in-house production, with a maximum paper capacity of 1,850 sheets.
- Built-in PictBridge support lets you directprint your digital photographs in brilliant, high-resolution color on 4" x 6" or larger media.

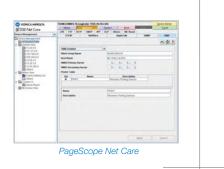

- Adjustable 250-sheet multipurpose cassette
- 100-sheet manual feed tray

### **Convenient Printer Management**

Helpful management utilities for individuals and IT professionals.

- Get real-time supply status and manage the printer from virtually anywhere using PageScope™ Web Connection and your standard browser.
- Network administrators can count on PageScope web-based tools for remote installation, management, and configuration of both KONICA MINOLTA and non-KONICA MINOLTA printers.
- Enterprise Management System (EMS) Plug-ins are available for seamless printing from HP OpenView, HP JetAdmin, IBM® Tivoli NetView, CA Unicenter®, and Microsoft® Management Console.
